Offenburg. Twenty horses and riders excited the visitors of the EUROCHEVAL in July 2008. The state studs of the neighbouring countries France, Germany and Switzerland presented themselves together on the southern German horse fair.

From Germany horses and riders from Marbach, Moritzburg and Celle participated in the show programme. France was represented by Montier en Der, Pin and Bréviares-Pôle. Switzerland sent horses and riders from Avenches.

A quadrille-pool is going to be established with horses and riders from the European state studs which can be booked for equestrian and other events.
